

# Highland School PTO 2020-2021

The Highland PTO invites you to help us support Highland School during as we begin an unusual, but successful school year! Parent involvement is the cornerstone of every PTO. This year will look different than any other school year. To start off the year, Highland PTO was able to provide all in-learning students with a mask bag to ensure mask safety during the school day. We were also able to provide Smile Buttons for the entire staff so students will be able to recognize the adult behind the mask. Finally, we were able to provide a bagged snack for teachers to celebrate their first day back. This was funded by your annual contributions and we cannot thank you enough!!

While we may not be able to hold in-person events, the Highland PTO is currently working on some fun and exciting virtual options as well as special surprises for students and faculty at Highland School. We wanted to THANK YOU in advance for this year's contribution and all your help making this year a successful one!
